## PROJECTS

---

**Personal Website :** <https://amirallami.github.io/portfolio/> (for additional information and projects)

**Color Project :** ([live version](#))([code](#))

- Developed a ReactJS app which is a combination of color palettes websites like [Flat UI Colors](#) and [Material UI Colors](#)
- Users can create a color palette or use existing ones to select a color and its different shades.
- A user can also copy color code and change it from hex to rgb to rgba.
- While Creating palettes users can use a colorPicker.
- **Utilized :** ReactJS, material-ui, react-router, ChromaJS, JSS

**Weather App:** ([live version](#))([code](#))

- A weather App made with reactjs using openweather Api, a user can search for his city and get the current weather and forecast for the next 6days.
- **Utilized :** reactJS, react country flags ,fontawesome.

**Recipe App :** ([live version](#))([code](#))

- Using edamam recipe api i created an app which allows you to search for recipes using keywords like: "chocolate" or "chicken".
- Utilized : reactjs , react-router-dom.
